A WORD ABOUT THIS TRIP

This publication is an effort to place in the hands of the Motorist an accurate Guide, for a trip through The Rocky Mountains of Alberta and British Columbia.

No words can describe the splendour of the scenery nor the majesty of the mountains themselves — but if this route is followed it achieves two results - - -

The Tour complete is over excellent highways — many of which are paved and which wind through the most beautiful Mountain Country in the World - - - second, it is the only way a comprehensive view of Canada's Rockies, from the accessible roads, may be seen without doubling back - - - If entering from the Eastern and Mid-Western States through Montana, simply begin at Page 3 and follow on - - - But if entering from the West Coast or from the South, consult Page 2 for directions.

The Publisher hopes you will enjoy this trip - - - certainly it will never be forgotten - - - Besides the Mountains, visitors will see our Two Westernmost Provinces where Canadians, like Canadians across the Country, extend a hearty welcome to you.
